## PAW PRINTS

### DOGGY PLAY DAYS

Every Saturday, 10 a.m., the SFS softball field. Big/rowdy dogs come out to play the first, third, and fourth Saturday. The second Saturday is reserved for small (under 20 lbs or not hyper/fast moving) dogs. Water and doggy bags are provided. 535-3855.

### TIP—See your doggie dentist (cats too).

Everyone knows the importance of brushing your teeth and getting them cleaned annually, but did you know your pets need their teeth brushed and cleaned as well? Dogs and cats get plaque, or calculus on their teeth. If you look in your pet's mouth and see dark green or brown discoloration near the gums, this is the calcification. Feeding them soft food and not enough hard crunchy food, treats, or bones can add to the problem. Some pets are simply pre-disposed to have bad teeth. Typically, older cats and small dogs are affected the most. It isn't only a matter of brushing with a toothbrush and special toothpaste though. At least once a year, animals with bad teeth should be taken to a veterinarian. There, they will be administered anesthesia so the vet can go in and thoroughly remove the plaque buildup on teeth. It is important to monitor your pets' teeth frequently. Gum disease and plaque can lead to tooth decay, tooth loss,

kidney disease, blood poisoning, and death. Please contact the on base vet clinic for more information.

*This tip brought to you by the caring people at Atlantic Island Kennel.*
